Highlights

Quality construction
Quality construction uses only top grade materials to create products of extended durability.

Nickel-Plated Connectors
Nickel-plated connectors establish a clean contact between the cable and connector for a reliable connection.

Bare copper shielding
Bare copper shielding protects against signal loss.

Color-coded connectors
Color coded connections make it easy to install your cable into the correct inputs and outputs

Easy grip
This non-slip grip makes connecting your components easy and ergonomically comfortable.

Plug and play
Plug and play offers easy installation of components without time-consuming installations.

Molded plug
Molded plugs ensure secure connections between components and offer extended durability.

Flexible PVC Jacket
Flexible PVC jacket provided protection to the delicate core of the cable. It also offers extended durability and ease of installation.

Rubber strain relief
Rubber strain relief provides a secure, yet flexible juncture between the cable and the plug.
